## EXPERIENCE

**Amazon clone**

I have worked extensively to create amazon clone using nextjs and moralis, smart contract. though it took me lots of time to figure it out but it was a success

**Facebook clone using html,css and Js 2023**

This was one of my amazing projects because i make use of my favourite tools suh as js. it was a amazing experience

**Trainers website creation**

This project was successfully done using Reactjs , which took about five day before its completion
